Did Not Lose Foot

July 17, 2006

Our Lady of the Roses,

I went in for foot surgery and one of my toes started to turn black. We were afraid I might lose it, so I put a rose petal on it for 3 days and I said whatever is Your will be done. It is not perfect, but I did not lose it. Praise God and Our Blessed Mother. Thank you for all you have done. Love and God bless, Ms. T. - Arkansas

Veronica's Rosaries Turn Gold

June 10, 2006

On a Sunday morning, Veronica and her followers were not permitted to have the Holy Hour on the grounds of St. Robert Bellarmine Church, so Veronica and her followers held the Holy Hour across the street at the corner. However, this situation was only temporary. Veronica said to us, that St. Theresa asked her to buy 5 pairs of red rosary beads and bring them to the Shrine. "I did not know why she asked me to do this,"

St. Theresa said to Veronica, "hold the beads up for all to see." When Veronica held the beads up - all 5 pairs turned gold, all at one time, then she gave them out to five people. This was a beautiful sight to see.

Respiratory Function Recovered

January 2006

Dear faithful workers of Our Lady of the Roses Shrine,

In September and October 2005 my brother-in-law was confined in the hospital ICU suffering blood which affected his respiratory function. He had a **very difficult time breathing** and had to use the oxygen mask to breathe. His lung was so filled with liquid that he was not given ordinary water and he was only given water in jello like form. He was wheezing as he breathed. I was really fearful that he would never leave the hospital alive under this condition. **I made a petition to our dear Lady of the Roses, Mary Help of Mothers**, hoping and praying that he will make it through and given enough time to settle his worldly affairs. As each day went by his condition improved and much to my surprise, he was soon transferred to a nursing home for about two weeks. Well, I felt fearful all along these crying days, but **through the intercession of Our Lady of the Roses, he recovered** and is now resting and recuperating at home. Thank you dear Blessed Mother! Sincerely,

Mr. U. - Hawaii

Cancer Not Spreading, Husband Converting

June 3, 2006

In October 2005, **I was diagnosed with Choroida Melanoma in my right eye**. This is an extremely rare and aggressive disease. On November 4th, 2005 my eye was removed. I was told this Ophthalmology Melanoma is so rare, **it is incurable** and there is currently no research in the world for a cure. My sister asked for prayers from **Our Lady of the Roses and sent me a Rose Petal**. Since then, I have entered my name to continue to receive prayers. I would undergo blood tests, sonograms, cat scans, MRI and PET scans every other month. My Oncologist, Primary care doctor and ophthalmologist have told me this disease is very aggressive and **little hope of survival as there is no known treatment for it**.

Many people of many faiths have prayed for me. My rosary is also always nearby. **After 6 months of tests, my lungs, brain, liver and blood are all as they were in October.**

My husband is now converting to Catholicism after 54 years of marriage. Mary, Jesus and Joseph are surely with me. **Without Our Lady of the Roses and Jesus, I doubt my health would be this good.** Please continue to pray for me and the following ill friends and relatives and myself.

Thank you.

Damaged Valve Found

Dearest Friends, June 28, 2006

I've received my most welcomed "package" from you. Many thanks! I've been very ill for 2 ½ years since I fell. My leg is in bad shape, but a new specialist found – last week – **my valve on my liver is damaged** – Finally after 2 ½ years of tests of all kinds and severe vomiting and pain, **the Lord and Our Blessed Mother helped me!** I will be having an **operation soon to correct it.**

I've been passing out the Rose Petals to many people in need. My daughter gave one to her boss – suffering leg pain – he's not Catholic, but thanked her, and kept it – he felt it helped him. So I've given her more. She also has a non Catholic friend who suffered a tragedy and is giving her one. ... She truly believes now as we do.

Survived Cancer

Dear Friend, October 16, 2006

Two years ago my mother was **diagnosed with cancer** for the second time. We were told that she only had three months to live. At that time, a woman I worked with gave me a rose petal to use for her – she survived. A year later she was diagnosed with cancer again. And again I used the rose petal and again she survived. And just this past week **she was told she was all clear and healthy.** She now hands out the blessed rose petals to everyone she knows as I do too. **I truly believe it was Our Lady of the Roses** and all that goes with you that got her through this. She just had her 73rd birthday on October 14th and is still celebrating. Also my Dad has his healthy and happy wife back again that he can grow old with. I don't have much to offer but a heartfelt thank you. So thank you with all my heart. We carry our rose petals with us always. Sincerely,

Roxanna - Nevada

Daughter's Feet Cured of Pain

May 26, 2006

Dear Our Lady of the Roses,

When my daughter was younger she had to wear braces in her shoes to straighten her feet and toes. There were no broken bones. Now at age 6, she has been complaining that **her feet hurt very badly.** The doctor did not know what it was and recommended an orthopedic. I could not get an appointment. **I used the Blessed Rose petal from the Shrine** all over her body **and her feet.** This helped greatly and **my daughter has no more pain** and she doesn't need to go back to the doctor. Thank you Blessed Mother of the Roses.

Mother and Newborn Son Came Through

Ave Maria

Dear Lady of the Roses, Mary Help of Mothers,

Thank you, thank you, Thank you!!!

Last year my son's wife became pregnant with her fourth child – **her pregnancies are hard,** her heart valves leak, (she was supposed to have an operation on them when she had her third, but her health wasn't good... her valves keep getting worse).

Right away with **the fourth pregnancy she was in trouble!** I wrote to the Shrine (petition) for her, AND Jill got better, was able to return to work as a teacher with special children. Her due date: August 10, 2006. Nearing July 2006, she (if not beginning of July), bed rest was ordered, her blood pressure went up *and she* entered the hospital – she was scheduled for Caesarean July 21st, however **her blood pressure went up really high** so on July 15, 2006 a caesarean was done... **Jarret James was born, but he was having trouble breathing** and was transferred to St. Rita's Hospital in Lima, Ohio. **His condition worsened with one hole in his lung,** then another, so once again **I wrote a petition** to the Shrine, Yes again, Our Lady came through!!! Thank you, thank you, thank you!!! **Thank you Jesus. Jarret James' three holes are healing,** tubes taken out, (they lowered the pressure of the oxygen he was being given which caused the holes). Jarret James was baptized by the priest and his condition stabilized the day I'm sure the petition reached you. He has a staph infection by his navel, but may be going home this end of the week, (August 4th). So please continue with prayers for him and his mother. Thank you.
